

Partition Manager 9.0

Manage your partitions with Ease and Confidence!

Key Features:

Improved Microsoft® Vista Support
Basic and advanced operations take into account all Vista specifics. Includes support for Microsoft® Vista 64-bit.

Critical partitioning information automatically backed up. Simple Backup Wizard and Initial Backup help you save initial partitioning layout before applying any critical partitioning operations.

Improved Dynamic Disks Support
View, Format, Convert, Defragment Microsoft® dynamic volumes and check file system for errors and inconsistencies.

Boot Manager
Allows for several OSes on the same computer and switch between them at boot time. New OS Install Wizard helps you setup Microsoft® Vista/XP on the same drive.

Shrink/Compress MFT
Optimizes Master File Table (MFT) on NTFS volumes. Makes MFT smaller and faster by removing empty entries.

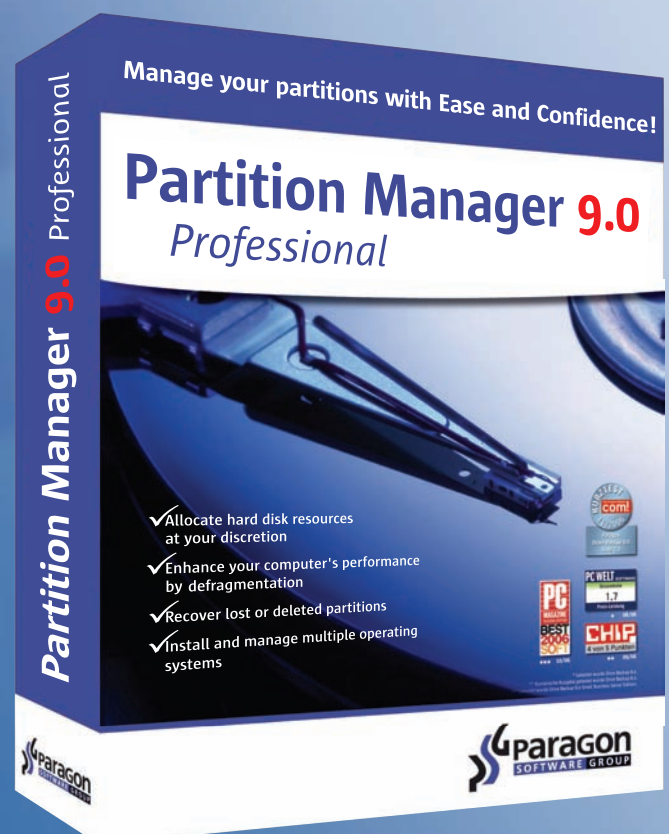

Windows® PE 2.0 based Recovery CD
Advanced Recovery CD based on a new version of Windows® PE which provides more possibilities to add new hardware drives.

Disk Editor
New easy-to-use Disk Editor with improved User Interface and advanced functionality.

Simple Backup Wizard

Paragon Partition Manager 9.0 is the best tool for easy and reliable hard disk partition management for your home and office. The exclusive Simple Backup Wizard gives you the opportunity to roll-back your critical partitioning operations in the initial stages. Paragon software's most powerful partitioning feature set and intuitive user interface delivers complete confidence and control over the partitioning process.

The new Personal and Professional Editions of Partition Manager provide you with the best hard drive partitioning ever!
