Paragon Software Greet 300 Journalists at ShowStoppers

October, 2006

NY, at ShowStoppers for the Digital Holidays, reporters, columnists and editors were looking for the latest and greatest in software, digital gadgets, gear, gizmos and holiday gift ideas. Business reporters were scanning sales of innovative software, and bright shiny tools for breaking news and compelling stories. Industry analysts want to know what will be hot in the industry in the next few months.

Paragon Software Group, the leading developer of innovative software solutions in storage management and data safety was demonstrating several of their innovative products: Paragon Drive Backup; Paragon Partition Manager; Paragon Deployment Manager and Paragon System Recovery. Journalists spent time speaking with Paragon senior staff and were greatly impressed with the rich feature set of their products. According to Jeffrey W. Hyman, President of U.S. Division: "We were pleased to be speaking with influential members of the high tech and business press. Our goal is to provide them with the most up to date product and company news."

Paragon Software Group- Company Profile

Paragon Software Group (PSG) is a German based company founded in 1994, with offices in Germany, Russia and the United States. In addition to storage and data security, PSG creates and sells software solutions in the following categories - System Utilities, Smart Handheld Devices (dictionaries, games, utilities and handwriting recognition for SHD), Epocware (software for Symbian platform) and Intelware (internet related software development).
