Paragon Drive Backup 8 Small Business Server released.

New reliable and cost-effective solution for small businesses comfort.

July 2006 – San Jose, CA - Paragon Software Group, the leading provider of innovative, reliable technologies and software solutions in storage management and data safety, announced the release of **Paragon Drive Backup Small Business Server** - the perfect complement to **MS Windows Small Business Server Editions**. This specific backup solution will safely and confidently protect your business data without the complexity typically associated with server technology.

"Small businesses understand that if they want to succeed, they need to have an opportunity to backup, access and restore their data any time", -says Konstantin Komarov, CEO of Paragon Software Group "We created Drive Backup Small Business Server edition to enable small business customers to be able to continually capture their important data. This method simplifies ensures an everyday backup routine, reduces Total Cost of Ownership (TCO) and contributes directly to the bottom line."

Paragon Drive Backup SBS provides complete and comprehensive **data and system** protection for Windows Small Business Server including **Exchange, SQL and all your applications**. With a strong feature set, this product provides a unique solution - implementing the following certified technologies:

- Reliable data protection based on **certified backup and recovery technology** for Microsoft Windows Small Business Servers. Drive Backup SBSE completely integrates with **Microsoft's Volume Shadow Copy Service (MS VSS)**. This technology allows you to backup and then safely restore complete server driven applications such as MS SQL and MS Exchange.
- Continuous protection of your business data. With Paragon's exclusive **HotBack™ technology**, Small Business Server Edition can create an image of the server's hard drive "on-line" and in "real-time", without leaving Windows and without interrupting server's current activity.

Paragon Drive Backup Small Business Server is a **fast and reliable recovery** system. While minimizing downtime, it also provides small businesses with great licensing flexibility.

For more information about the product, please visit its website <http://www.drive-backup.com/corporate/business>

Paragon Software Group- Company Profile
