Paragon Software Group represents 42% of Japanese Hard Disk Copying, Cloning and Deployment Products' retail market in 2006.

September 2006

Paragon Software Group, the leading provider of innovative technologies and software solutions in the field of storage management and data safety, has become the leader of the Japanese software retail market. Paragon products are sold with the help of local partner LifeBoat Inc.

"The analysis made by an independent marketing agency shows that the problem of hard disk data safety, copying, deployment and usability is still urgent and this becomes a crucial aspect in the company's success, said Konstantin Komarov, CEO of Paragon Software Group, "**Our solution meets the requirements** of customers all over the world, providing a reliable and safe product. **More than 1/3 of users** have chosen Paragon to protect their businesses."

"We are glad to say that Paragon Software Group has always been at the top of the market with its unique hard disk imaging technologies and solutions. The independent marketing research has proven so", said Masahiro Matsushita, CEO of LifeBoat Incorporation.
