Paragon Software Group Roadshow: introducing unique technologies seminar.

January 2005

Paragon Software Group, the European specialist for innovative data security and data management technology, presents a comprehensive seminar for all the interested persons. This event is devoted to introducing Paragon Software Group unique technologies approved by ten years of software developing experience and competence.

Senior Technology Consultants from Paragon Software Group share their experience and deep knowledge in the following fields:

Paragon NTFS for Linux Technologies

Paragon Imaging and Partitioning Technologies

Paragon System Recovery Software Solutions oriented on System Builders

Understanding the needs of today's market Paragon Software Group offers its technologies to existing and perspective partners covering and pursuing the complete range of technology partner relationships with wide row of approaches and on various technology application levels.

The seminar is opened for all the comers, but before it, you should register (at www.paragon.ag) and then attend Paragon Technologies Roadshow on 11th of January, 2006 - Sunnyvale, CA or San Jose, CA
