**PARAGON SOFTWARE RELEASES *DRIVE COPY 11 PROFESSIONAL* --  
THE NEW-GENERATION MIGRATION TECHNOLOGY  
PERFORMING ANY COMPUTER MIGRATION TO PHYSICAL OR  
VIRTUAL ENVIRONMENT – NO MATTER THE SOURCE OR THE TARGET**

*Copies and migrates to all disk types; supports all Windows versions, migrates even to dissimilar hardware!*

**FREIBURG, Germany, February 8, 2011** – [Paragon Software Group \(PSG\)](#), the technology leader in innovative data security and data management solutions, announces the release of [Paragon Drive Copy 11 Professional](#), the newest generation of copy operations and migration software enabling the fast and easy transfer of operating systems and data to any physical drive or virtual environment – no matter the source or the target. *Paragon Drive Copy 11 Professional* includes all the latest migration and cloning technologies to perform any type of home user migration and ensure the competent, issue-free transfer of partitions to all types of modern 2.2TB+ HDs or SSDs, or virtual system environments.

**Key benefits:**

- Ultra high-capacity HD support (>2.2TB) migrates existing system from MBR to modern Retained GPT (also known as Hybrid GPT) HDD and gain access to complete HDD capacity;
- Migrate OS to SSD copies only System and System Reserved partitions to new Solid State Drive;
- Auto-alignment of copied partitions for better performance;
- WinPE 3.0 recovery environment supports a wider range of hardware configurations with the option to instantly add drivers for specific hardware;
- Wide migration options – migrate to another hard drive, migrate to different hardware, migrate to virtual machine;

- Dissimilar hardware support allows migration of existing system and makes it bootable in a new environment;
- Copy features – copy a full hard disk or a separate partition, and resize a partition while copying;
- GPT Loader driver grants full access to GPT volumes under legacy OSes;
- Supports all major virtual machines: MS Virtual PC, VMware Workstation, Oracle Virtual Box, VMware Fusion;
- Basic partitioning features;
- Refined User Interface – improved two-level user interface (Easy/Advanced) to satisfy needs of every customer;
- Boot Corrector
- Online data processing technologies support Microsoft VSS and Paragon HotCopy;

**The software supports all types of migrations, including:**

- Everyday migration through an easy-to-use *Migrate Hard Disk Drive* wizard
- Virtual cloning of your PC -- including operating system, drivers and settings, all your applications and files. Make the system mobile by saving it to a USB hard drive and using it on another computer, just as if you're working from your own PC.
- Upgrade to solid state drives (SSD) through the intuitive *Migrate OS to SSD* wizard, performing fast and safe Windows migrations to new storage devices (HDD or SSD) with the ability to downsize partitions to smaller capacity drives.
- Migration to a 3TB drive with full, unrestricted access to the entire volume of disk space beyond the 2TB limit.
- Easy hard drive migration from notebooks via *Container File* – migrate the system to a *Virtual Container*, replace the old HDD, then simply restore the system to the new drive.

**Pricing & Availability:**

*Paragon Drive Copy 11 Professional* is available for \$39.95 via download from <http://www.paragon-software.com/home/dc-professional/>

For a full list of features and benefits, please visit <http://www.paragon-software.com/home/dc-professional/features.html>

For advanced functionality beyond system virtualization and cloning, please visit <http://www.paragon-software.com> to view product information and demos on other Paragon Software technologies, including [\*Drive Backup\*](#), [\*Virtualization Manager\*](#) and [\*Hard Disk Manager\*](#).

### **About Paragon Software Group**

Paragon Software Group is an innovative software developer focused on two dynamic growth markets. The company's comprehensive product line for the data storage market addresses the needs of data security, storage and management for PCs, servers and networks. A second portfolio of products focuses on mobile productivity applications for handheld devices. Founded in 1994, Paragon Software has offices in the USA, Germany, Japan, and Russia, delivering its solutions to consumers, small business and enterprise clients worldwide through a network of Value Added Resellers, distributors and OEMs as well as online through the company website. Paragon Software provides technology to a host of world class companies and partners including Cisco, Dell, Toshiba, NEC, Siemens, Microsoft, Motorola, Nokia, and more. For more information please visit the company website at [www.paragon-software.com](http://www.paragon-software.com).
