Paragon Migration Suite for Servers Eases System and Data Transfer

Migrates System to Dissimilar Server Hardware; Perfect for Small- to Mid-Sized Businesses and Resellers

IRVINE, Calif., July 26, 2011 – Backup and recovery software developer Paragon Software Group introduced Paragon Migration Suite for Servers (MSS) designed to ease the transfer of system software and data to dissimilar server hardware. Competitively priced, the software is perfect for small- to mid-sized businesses or resellers. The software eases the transfer of the entire system from any server to another physical or virtual machine, as well as simplifies maintenance tasks and exchange of data.

"Moving large numbers of servers to new hard drives, virtual environments or dissimilar hardware or a combination thereof is normally a difficult, time consuming task and the reason we created Paragon Migration Suite for Server" said Tom Fedro, president of Paragon Software Group. "This powerful suite of migration technology empowers the IT professional to quickly and seamlessly move servers to new environments and is attractively priced for our resellers and SMB customers." The software eases migration tasks without any additional data-media management requirements.

Key features
- Migrates a cloned copy of a hard drive or partition for adjusting the target system to a different physical or virtual environment
- Supports Windows 2003 Server, Windows Server 2008 R2 and Windows Small Business Server 2011
- Automatically performs partition alignment for better performance

- Supports all major virtualization software vendors including Microsoft, VMware, and Oracle Virtual Box
- Supports online data processing technologies Microsoft VSS and Paragon HotCopy so a system restart is not required to complete operations

Pricing for Paragon Migration Suite for Servers starts at $199 U.S.

About Paragon Software Group
Paragon Software Group is an innovative software developer focused on two dynamic growth markets—data storage and mobile productivity. The company's comprehensive product line for the data storage market addresses the needs of data security, storage and management for PCs, servers and networks. A second portfolio of products focuses on mobile productivity applications for handheld devices. Founded in 1994, Paragon Software has offices in the USA, Germany, Japan, Poland and Russia delivering its solutions to consumers, small business and enterprise clients worldwide through a network of Value Added Resellers, distributors and OEMs as well as online through the company website. Paragon Software provides technology to a host of world class companies and partners including Cisco, Dell, ASUS, Seagate, Buffalo, Iomega, Siemens, Lenovo, Microsoft, Motorola, Nokia, and more. For more information please visit the company website at www.paragon-software.com.
