SofTec Solutions Selects Paragon Software as Sole Provider for Backup and Recovery Solutions

Paragon Chosen for Responsiveness and Variety of High-Quality Products

IRVINE, CA, June 1, 2011 - Backup and recovery software developer [Paragon Software Group](#) (PSG) announced that value added reseller (VAR) [SofTec Solutions](#) will offer Paragon's software products as the only [backup and disaster recovery](#) solutions for their customers.

A top supplier of IT services across the U.S., SofTec Solutions provides a range of IT services from front-end consulting and planning to systems integration and outsourcing. Beginning the search for a partner in 2010, SofTec implemented a strict criterion during the selection process. After evaluating a host of other potential partners, they decided on Paragon Software Group.

"At the get-go, we decided to be very selective with the partner we chose," said Frank Sain, executive vice president for Operations and Business Development for SofTec Solutions. "Paragon's customer service proved to be top-notch — they were very responsive and provided a good turnaround time. Additionally, we wanted to work with a partner that was focused, yet could provide a variety of solutions to meet our needs. Paragon is the only disaster recovery software provider we work with; in fact, we put them in the same category as Microsoft."

"We are honored to have been selected as SofTec's provider for backup and disaster recovery software," said Tom Fedro, president of Paragon Software Group. "We are an active participant with all our clients and invest our time and effort into providing timely cost-effective, high-quality products — helping our partners provide superior service with great ROI."

Paragon Software's Storage Management Division offers cost-effective solutions for hard drive management, storage management and data protection with full-featured solutions for storage lifecycle management. Paragon's best selling backup and recovery software

include Hard Disk Manager Server 11, Drive Backup Server 11, Partition Manager Server and the Paragon Alignment Tool—PAT 3.0.

About SofTec Solutions
